Introduction

The State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area. The approved performance standards require a LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at a regularly scheduled public meeting of the local governing board/body in conjunction with the adoption of the Local Control and Accountability Plan (LCAP).
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

Below are the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

The performance standards for the local performance indicators are:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilitates (LCFF Priority 1)

The LEA annually measures its progress in meeting the Williams settlement requirements at 100% at all of its school sites, as applicable, and promptly addresses any complaints or other deficiencies identified throughout the academic year, as applicable; the LEA then reports the results to its local governing board at a regularly scheduled meeting and to reports to educational partners and the public through the Dashboard.

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

The LEA annually measures its progress in: (1) seeking input from parents in decision making and (2) promoting parental participation in programs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.
School Climate (LCFF Priority 6)

The LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students (COE Only – LCFF Priority 9)

The county office of education (COE) annually measures its progress in coordinating instruction as required by California EC Section 48926; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster-Youth (COE Only – LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board at a regularly scheduled meeting and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of misassignments of teachers of ELs, total teacher misassignments, and vacant teacher positions
- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)
Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

<table>

</tbody>
</table>

LEAs may provide a narrative summary of their progress in the implementation of state academic standards based on locally selected measures or tools (Option 1). Alternatively, LEAs may complete the optional reflection tool (Option 2).

**OPTION 1: Narrative Summary (Limited to 3,000 characters)**

In the narrative box provided on the Dashboard, identify the locally selected measures or tools that the LEA is using to track its progress in implementing the state academic standards adopted by the state board and briefly describe why the LEA chose the selected measures or tools.

Additionally, summarize the LEA’s progress in implementing the academic standards adopted by the SBE, based on the locally selected measures or tools. The adopted academic standards are:

- English Language Arts (ELA) – Common Core State Standards for English/Language Arts
- English Language Development (ELD) (Aligned to Common Core State Standards for ELA)
- Mathematics – Common Core State Standards for Mathematics
- Next Generation Science Standards
- History-Social Science
- Career Technical Education
- Health Education Content Standards
- Physical Education Model Content Standards
- Visual and Performing Arts
- World Language

[Respond Here]
OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA’s progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

Rating Scale (lowest to highest) -
- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

<table>
<thead>
<tr>
<th>Academic Standards</th>
<th>1</th>
<th>2</th>
<th>3</th>
<th>4</th>
<th>5</th>
</tr>
</thead>
<tbody>
<tr>
<td>ELA – Common Core State Standards for ELA</td>
<td></td>
<td></td>
<td>3</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ELD (Aligned to ELA Standards)</td>
<td>1</td>

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

[Respond Here]
Parent and Family Engagement (LCFF Priority 3)

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education’s (CDE’s) Family Engagement Toolkit:¹

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.

- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students’ learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes
3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.

3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA’s current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):
   1 – Exploration and Research
   2 – Beginning Development
3 – Initial Implementation  
4 – Full Implementation  
5 – Full Implementation and Sustainability  

4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.  
5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families  
Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA’s current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -  
1 - Exploration and Research Phase  
2 - Beginning Development  
3 - Initial Implementation  
4 - Full Implementation  
5 - Full Implementation and Sustainability

<table>
<thead>
<tr>
<th>Practices: Building Relationships</th>
<th>Rating Scale Number</th>

</table>

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

   The school's strengths are using Parent Square for two way communication with families, hosting large school based evening and weekend community events in the fall and spring, and facilitating student-led conferences at the end of the first and second trimesters.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA’s focus area(s) for improvement in Building Relationships Between School Staff and Families.
Our next step is to host smaller, more frequent opportunities for school staff and families. This includes monthly morning events such as coffee with the principal and family liaison, and monthly evening events such as game and movie night.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

The school will improve engagement of underrepresented families by inviting underrepresented families to help plan outreach events, and to personally invite them to participate in events.

### Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

**Rating Scale (lowest to highest)** -
1. Exploration and Research Phase
2. Beginning Development
3. Initial Implementation
4. Full Implementation
5. Full Implementation and Sustainability

<table>
<thead>
<tr>
<th>Practices: Building Partnerships</th>

<td>5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.</td>
<td>2</td>
</tr>
<tr>
<td>6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.</td>
<td>3</td>
</tr>
<tr>
<td>7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.</td>
<td>3</td>
</tr>
<tr>
<td>8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.</td>
<td>3</td>
</tr>
</tbody>
</table>

### Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

Briefly describe the LEA's current strengths and progress in this area, and identify a focus area for improvement, including how the LEA will improve the engagement of underrepresented families.

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

   Our strengths are gathering student academic data and work samples to create and update Individualized Learning Plans for each student, and to facilitate student-led conferences at the end...
of the first and second trimesters to share the data and to update the ILPs.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA’s focus area(s) for improvement in Building Partnerships for Student Outcomes.

Focus areas for improvement in building partnerships for student outcomes are increasing family participation in student led conferences. We will explore ways to make the conferences more meaningful and approachable to families.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Focus areas for improvement in building partnerships for student outcomes are increasing family participation in student led conferences. We will explore ways to make the conferences more meaningful and approachable to families.

YES will improve engagement of underrepresented families in relation to building partnerships for student outcomes by inviting underrepresented families for input on what would make the student led conferences more successful and meaningful for them, and personally inviting them to participate in student led conferences.

Section 3: Seeking Input for Decision Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

Rating Scale (lowest to highest) -
1 - Exploration and Research Phase
2 - Beginning Development
3 - Initial Implementation
4 - Full Implementation
5 - Full Implementation and Sustainability

<table>
<thead>
<tr>
<th>Practices: Seeking Input</th>
<th>Rating Scale Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>9. Rate the LEA's progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.</td>
<td>3</td>
</tr>
<tr>
<td>10. Rate the LEA's progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.</td>
<td>2</td>
</tr>
<tr>
<td>11. Rate the LEA's progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.</td>
<td>3</td>
</tr>
</tbody>
</table>
12. Rate the LEA’s progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA’s current strengths and progress in Seeking Input for Decision-Making.

   Our strengths are inviting educational partners to Council of Directors meetings, Roadmap Planning meetings, and other meetings. We use Parent Square for surveys and feedback.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA’s focus area(s) for improvement in Seeking Input for Decision-Making.

   Our focus areas for improvement in seeking input for decision-making is to create committees that have a short time of service and a specific issue to address, and to invite educational partners to participate.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

   We will improve engagement with underrepresented families in relation to seeking input for decision-making by inviting them to identify issues that they would like to see addressed, and inviting them to participate in a small group for a specific time to address the issue.

School Climate (LCFF Priority 6)

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12) in a text box provided in the California School Dashboard (response limited to 3,000 characters). LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

1. DATA: Reflect on the key learnings from the survey results and share what the LEA learned.

   The key learning from the survey results is that parents, students and staff members are more concerned about safety issues in the form of students’ social emotional well being than in test scores and academic achievement. Concerns were about what was characterized as “bullying” as well as disruptive behavior by students. The bus and recess stood out as the times and places where bullying and disruptive behavior took place.

2. MEANING: What do the disaggregated results (if applicable) of the survey and other data collection methods reveal about schools in the LEA, such as areas of strength or growth, challenges, and barriers?
The LEA’s area of strength is positive relationships between the school and community organizations that were forged during project based learning (PBL). The LEA’s challenges are providing opportunities for social emotional growth to students and involving family members with the school. The LEA’s Barriers are finding ways to engage families in ways that are meaningful to them. We are a rural school with students attending who ride a bus a distance from the school. Many parents are not able to easily come to the school because of distance and lack of reliable transportation.

3. USE: What revisions, decisions, or actions has, or will, the LEA implement in response to the results for continuous improvement purposes? Why? If you have already implemented actions, did you see the results you were seeking?

One action that the LEA has already implemented is creating the position of bus monitor, a staff member who rides the bus along with the students and driver. This is in response to reports of bullying and disruptive behavior on the bus. We have seen the result of fewer reports of bullying and disruptive behavior on the bus. One action that the LEA will implement next year is a program called “Rethinking Recess.” Our goals for implementing the program are (1) to create opportunities during recess for students to learn and practice pro-social skills, (2) to eliminate bullying and disruptive behavior during recess. (3) to create a culture where students are prepared to learn.

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (Response limited to 1,500 characters)

The school’s master schedule reflects how we work to ensure that all students are enrolled in a broad course of study. All students in TK-5 have a homeroom schedule that includes all subjects to provide a broad course of study. Middle school students have a schedule that includes a broad course of study with core subjects and electives. Individuals with exceptional needs such IEPs goals are met with a push in model as much as possible. When pull out services are necessary, they are done during times not designated as core curriculum or PE. Designated ELD is taught during non-core, non PE periods.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (Response limited to 1,500 characters)

The school is a one school site, TK-8 district. All students in TK-5 are served in a homeroom class that offers a broad course of study. All middle school students follow a block schedule that provides a broad course of study including core classes, PE, and electives.
3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (Response limited to 1,500 characters)

   Due to the small size of the school, we are often limited to the number of elective courses that can be offered to students. As we expand into the high school grade levels starting in Fall 2024, we expect to be able to offer more electives and expose students to a variety of non-core courses.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (Response limited to 1,500 characters)

   We will explore varying electives by using online resources until we expand our grade levels and course offerings.
